Senior UI/UX Designer

About us

This Place is a digital studio in Shoreditch. Our motivation is UI/UX and how it can be used to improve digital experiences across web, mobile, tablet and wearable devices. We're a friendly, driven team, who are passionate about all things digital and enjoy working with a series of influential global brands. In addition to client projects we also focus some of our time on applying our passion to new products and evolving technologies.

The Role

We have an immediate opening for a Senior UI/UX Designer for a permanent position at our London studio, starting ASAP.

You will be directly responsible for leading projects all the way from concept and design strategy, through to prototyping/wire-framing - to ultimately getting hands-on and delivering amazing visuals!

As an integral part of the team, you will own several projects across our range of clients. From creating world-leading usability, to creating high-quality designs for small and mega-brands, each day will be a chance to lead the team to new levels of excellence.

You will be comfortable designing across mobile, tablet, web, glasses, VR and everything in between - as well as whatever may come next!

Communication skills are essential at This Place. You will be comfortable communicating directly with clients, running client workshops and confidently presenting your team's work, both internally and externally.

This Place is passionate about their people and we can't wait to meet you and see what you bring to the team!

Essential skills:

- **Passion for digital, UI/UX and all that is digital design.**
- **Minimum of 6 years' professional experience in a design studio environment.**
- **Experience of running teams of visual and interaction designers.**
- **Deep knowledge of designing for responsive web and mobile (iOS & Android)**
- **Killer skills in Adobe Photoshop, Illustrator and Sketch.**
- **Very strong ability to communicate both verbally and in written correspondence with clients, as well as the rest of the team.**
- **Experience in using prototyping software and running user-testing sessions.**
- **Ability and passion for mentoring the other designers in your team.**
- **Commitment to contribute to and drive company best practices across all disciplines.**

Bonus skills:

- **Ability to prototype designs in (HTML, CSS and JavaScript)**
- **Skills in After Effects and motion graphics.**
